#### HAVE SUFFICIENT GEGUND STAFFS: ATTACK IMMINENT

DETAILS OF AXIS MILITARY FORCES ON THRKEY'S FRON-TIERS were given by MARTIN AGRONSKY, Ankara correspondent of the National Broadcasting Company, in a broadcast to the United States this morning.

According to his figures, combined Nazi. Bulgarian and Italian forces near the Turkish frontier amount to 16 divisions plus a further four Nazi divisions in Bul

Eight Bulgar divisions are on the Turkish frontier in Eastern Thrace. The Bulgars do not possess a single fully motorised or armoured division. Only two o the Nazi divisions in Eulgaria are assault troops-none are armoured or motorised.

The Nazis also have sufficient ground staffs to man fully at e least 20 aerodromes, but no planes. In Greece, the Germans have two active service divisions. none of them based near the Turkish frontier of the motorised type.

#### ITALIAN DIVISIONS

As for the Italians, they have three divisions based on a former Greek Aegean Island commanding the mouth of the Dardanelles and lying the length of Turkey's western coastline.

In Eastern Thrace, near the Turkish frontier, the Italians have only one division. It is motorised with only a few tanks.

It is persistently rumcured here that a German attack is imminent. However, according to these dispositions, it cannot be seen how they can attack, adds the correspondent

# ROLLING UP SLEEVES

SYDNEY, Sept. 2 (Reuter)-"Uncle Sam has taken off his coat and is rolling up his sleeves," said SIR FREDERICK STEWART, Minister for External Affairs, commenting on President Roosevelt's appeal to American labour which is one all Australians understand

"Our diplomacy must be backed not only by strong fighting forces, but also by a healthy and harmonious war industry, thus giving both vigour to our arms and justice to our claim for material support by friendly nations," added Sir Frederick.

"In effect," said Sir Frederick, "the President admits that the United States Navy must be used in conjunction with other navies against Hitler in order to have any prospect of success."

# CLEAR BEYOND PERADVENTURE THAT AMERICA CAN NEVER COMPROMISE WITH NAZIISM

# But People Not Yet Fully Convinced Of Imminence Of Peril—Daily Mail

WELCOME TO PRESIDENT ROOSEVELT'S BROADCAST WAS EXPRESSED BY THE BRITISH PRESS YESTERDAY MORNING, ALL STRESSING AMERICA'S MORE FORCIBLE POLICY, AND THE ANXIETY AND EAGERNESS WITH WHICH THE PRE-SIDENTIAL DECLARATION WAS AWAITED.

That the President had in mind that the scope of the American effort should be limited only by capacity, is stressed by the DAILY TELEGRAPH which says that THE NOBLE ARGUMENT OF THE ADDRESS WAS THAT AMERICAN MEN AND WO-MEN WERE BOUND IN DUTY AND HONOUR TO PRESERVE THE RIGHTS OF FREE-DOM which they had enjoyed and that they must, therefore, do their "full part" in the task of conquering Naziism.

Arguing that the increased protection for the transport of American munitions means defiance of U-boats and aircraft of the Axis, the Daily Telegraph says that THE WARNING WAS GIVEN THAT NO THREATS OR ATTACKS WOULD BE ALLOWED TO STINT THE FLOW OF MATERIAL SUPPORT FROM THE UNITED STATES TO THE NATIONS FIGHTING FOR FREEDOM.

The main purpose of the broadcast, says the paper, was to make it clear beyond peradventure that the United States can never compromise with Naziism.

Stating that there is a growing nervousness that the fine American enthusiasm for the Allied cause had not been maintained in recent weeks. DAILY MAIL stresses that there is not, of course, THE SLIGHTEST WANING OF THE PRESIDENT'S AR-DOUR BUT THAT IT IS STILL HIS TASK TO PER-THE AMERICAN

TOKYO, Sept. 2 (Reuter)-"I THINK AT THIS STAGE THE LESS SAID THE BETTER," declared MR. ICHI KISHI, substituting for the spokesman of the Cabinet Information Board, when a foreign correspondent asked about the JAPANESE-AMERI-CAN NEGOTIATIONS AT WASHINGTON.

Asked whether there was any connexion between Mr. Mabuchi's speech last night and the Government's policy regarding the Washington talks, Mr. Kishi said that there was none since Mr. Mabuchi discussed only the general Japanese stand and did not specifically touch upon the Japanese-American parleys.

# Iran Agreement Reported

LONDON, Sept. 2 (Reuter)-IT IS REPORTED that Britain and Russia on one hand and the Iranian authorities on the other have reached an agreement in principle on the terms presented to the Iranian Government,

AS A RESULT, SOVIET TROOPS have received orders to stop any further advance in Iran. IT IS STATED FROM SIMLA that all is "quiet in Iran" and that no further daily communiques on the Iran operations are likely

to be issued. THE NEED FOR FIRMNESS in Iran is the theme of THE TIMES leader which says that the immunity of Teheran from occupation by Anglo-Russian forces can continue only if full confidence is felt in the fidelity of the Iranian Government in its undertakinks and capacity to fulfil them, according to Reuter.

"TOO MANY COUNTRIES, Iran among them, have learned to the spokesman when he was asked suppose that while opposition to the German wishes led to unpleasant consequences British interests could be ignored with compara-

# President Roosevelt's Labour Day Message

NEW YORK, SEPT. 2 (REUTER)-"ON THIS DAY-THIS AMERICAN HOLIDAY-WE CELEBRATE THE RIGHT of the free labouring men. The reservation of these rights is now virtually important not only to us who enjoy them but to the whole future of Christian civilisation," declared President Roosevelt in a broadcast speech on the occasion of Labour Day in the United States.

The President continued: "American labour now bears a tremendous responsibility in winning this most brutal, most terrible of all wars. In our factories, shops and arsenals, we are building weapons on a scale great in its magnitude. To all the battle-fronts of the world these weapons are being despatched by day and night over the seas and through the air, and this nation is now devising and developing new weapons of unprecedeuted power towards the maintenance of democracy.

THE WAR IN THE AIR:

# R.A.F. CARRY OFFENSIVE DEEP INTO-NAZI GERMANY:. REASONS FOR LOSSES

"Until the German air force is beaten out of the sky, R.A.F. casualties will continue to rise with increasing intensity. But directly the German air defences begin to break up, there will be a sudden drop in these losses and when that happens the days of the German air force will be numbered," said MAJOR OLIVER STEWART, M.C., A.F.C., the well-known commentator on aerial warfare. when he broadcast from London yesterday on the losses of British aircraft and personnel since the R.A.F. developed their recent offensives against Germany in the west.

"In Europe, the R.A.F. is now losing more heavily than the German air force in the west," began Major Stewart. "Its bomber losses are sometimes two or three times as great and its fighter losses have been heavier than the Germans have suffered.

RECENT LOSSES ' "Once recently the R.A.F. lost night 100. fourteen fighters for one German "When a force as large as that machine known to be destroyed. On Aug. 31, a when it was a comparatively easy year ago, the R.A.F. shot down 88 job when we held bases in France, enemy machines and lost only 15. | so we must take up this job now,

"We have learned to expect that the R.A.F. should get stronger - and it has got stronger," continued Major Stewart. "So it is puzzling at first that the R.A.F. should suffer more losses in relation to the enemy than it did then.

#### OBVIOUS REASONS

"Some of the reasons for this are obvious, some are new. mentioned a year ago that some that until the German air force is German planes had been brought beaten out of the sky, R.A.F. down by anti-aircraft fire. "On the other hand the R.A.F. is now spending much time over enemy-occupied territory. The German anti-aircraft guns, therefore, have a better chance than they had a year ago. There then is the first reason for the increased R.A.F. casualties and the deterioration in the ration of losses. A year ago the Germans were attacking and we were defending-now we are attacking and they are defend-

## NO CHECK ON RAF.

"It is true that the Germans have the Russian campaign to deal with so many planes as praise of the public and critics we did a year ago. Even so their fighter strength in the west is not great enough to put the smallest frey Northcote. check on the R.A.F. attacks.

"The obvious reason for the increasing R.A.F. casualties, therefore, is that the offensive is now undertaken by our pilots and not by the enemy pilots. "Herr Hitler is public enemy number one but complacently he is public enemy number two," remarked MR. BRENDAN BRACKEN, Minister of Information, in reviewing the situation after two years of war in London yesterday, according to Reuter Bulletin.

Mr. Bracken said that if Germany lost 3,000,000 men in Russia she would still continue to fight.

The situation in Britain now was much healthier than it was two years ago. Only a month ago RAUB AUSTRALIAN Herr"Hitler had boasted that he had won the Battle of the Atlantic. That boast was just as futile as Dr. Goebbels' promise that no bombs would fall on Berlin.

"The Battle of the Atlantic is in Britain's favour," added Mr. Bracken

"Our shipping losses have dropped sharply compared with the early Spring of this year. At that time the Germans probably had three times as many U-boats as they had at the beginning of the war."

# Unified System Of Control Expedient

The loss of efficiency consequent upon Malaya having ten separate civil administrations, with special reference to matters affecting the military authorities, was voiced by Mr. E. D. Shearn speaking at a recent meeting of the Kuala Lumpur Federal Council

Mr. Shearn suggested that for war purposes there should be an officer in the F.M.S. of equal seniority with the Colonial Secretary in the Colony to whom the High Commissioner could refer matters concerning the four States of the Federation.

#### COMMON MATTERS

"If any existing organisation or methods of administration unwieldy and prejudicial to the war effort, steps should immediately be taken to effect an improvement," he said,

Mr. Shearn thought it must ter realised by Government how greatwas the amount of extra work devolving upon the military authorities in this country by reason of the fact that "there are in Medaya in separate civil ad- HONGKONG ministrations -- how protracted are the delays attendant upon matters common to the whole country being handled by ten separate Governments and how great in consequence is the loss of efficlenes "

Mr Sheard then referred to recent case in which the militar authorities put before the civ authorities some very simple proposais and the question area whether they should be accepted and as to whether certain pay ments should or should not made by the civil government.

It appeared that most or per hups all of the administration concerned had expressed agree ment that there was a divergence with regard to the question payment and the matter had be referred to them again achieve uniformity.

It seemed to him that the matter was one which any one man of average intelligence could and should have decided within five minutes if he was a reasonably quick worker or in half an hour even in this land of "Besok bulch."
